INDEPENDENT AUDITOR'S REPORT

The Village President and
Members of the Council
Village of Mulliken
Eaton County, Michigan

We have audited the general purpose financial statements of the Village of Mulliken, Eaton County, Michigan, as of and for the year ended February 28, 2006, as listed in the table of contents. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and including those prescribed by the State Treasurer. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Village of Mulliken, Eaton County, Michigan, as of February 28, 2006, and the results of its operation for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining, individual fund, and the individual account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Village of Mulliken, Eaton County, Michigan. Such information has been subjected to the auditing procedures applied in the examination of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

VILLAGE OF MULLIKEN
Management's Discussion and Analysis

Using this Annual Report

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Village as a whole and present a longer-term view of the Village's finances. Fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the Village's operations in more detail than the government-wide financial statements.

The Township as a Whole

In a condensed format, the table below shows net assets as of fiscal year-end:

The funds of the Village of Mulliken remained fairly stable and relatively within budget, with few unexpected expenses.

Rising interest rates should yield a better return for certificates of deposit; however, the escalating costs of health insurance will continue to erode fund balances.

The fund balances of the local and major streets continue to be relatively low because of our continued aggressive street improvement and maintenance program.

The financial condition of the Village of Mulliken remains strong in my opinion, with a very small tax burden imposed upon residents.

VILLAGE OF MULLIKEN
Notes to Financial Statements
February 28, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the local Governmental Unit conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Local Governmental Unit:

A. Reporting Entity

The Village of Mulliken was organized in 1887 and covers an area of 1 square mile. The Village operates under an elected council of six members and provides services to its almost 600 residents in many areas including highway and street maintenance, construction, and sanitation service. The General Purpose Financial Statements contain all the funds and account groups that are controlled by or dependent on the Village's executive or legislative branches. There are no component units included in the reporting entity.

Blended Component Units - There are no blended component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All of the governmental funds are major funds.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

VILLAGE OF MULLIKEN
Notes to Financial Statements
February 28, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Village property tax is levied on each July 1st on the taxable valuation of property (as defined by State statutes) located in the Village as of the preceding December 1st.

Although the Village ad valorem tax is levied and collectible on July 1, it is the Village's policy to recognize revenue from the current tax levy in the subsequent year OR the current year when the proceeds of this levy are budgeted and made "available" for the financing of operations. "Available" means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period (60 days).

The 2005 taxable valuation of the Village totaled \$10,194,300, on which ad valorem taxes levied consisted of .46895 mills for the Village operating purposes. These amounts are recognized in the respective financial statements as taxes receivables-current or as tax revenue.

All other revenue items are considered to be available only when cash is received by the government.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

There are also three Special Revenue Funds as follows:

The Sewer Fund accounts for the operation and maintenance of the sewer system and for all related revenues.

The Major Street Fund accounts for the construction and maintenance of state trunklines and for all related revenues.

The Local Street Fund accounts for the construction and maintenance of local streets and for all related revenues.

D. Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments – Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables – In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and any business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown as net of allowance for uncollectible amounts. Property taxes are levied on each July 1st on the taxable valuation of property as of the preceding December 1st. Taxes are considered delinquent on September 15th of the following year, at which time penalties and interest are assessed.

VILLAGE OF MULLIKEN
Notes to Financial Statements
February 28, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventories and Prepaid Items - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets - Capital assets, which include property, plant, equipment, infrastructure assets (e.g. roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$2,500 and an estimates useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Interest incurred during the construction of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the current year, no interest expense was capitalized as part of the cost of assets under construction.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Buildings	25 to 50 years
Vehicles	6 to 10 years
Equipment	10 to 20 years

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The differences between the government-wide and fund financial statements are reconciled as shown at the bottom of the fund financial statements.

NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

In the body of the financial statements, the Village's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a line item basis. The approved budgets of the Township for these budgetary funds were adopted to the line item level and were amended primarily because of the unexpected need for street maintenance.

During the year ended February 28, 2006, the Village incurred expenditures in no budgetary funds which were in excess of the amounts appropriated.

VILLAGE OF MULLIKEN
Notes to Financial Statements
February 28, 2006

NOTE 4 - DEPOSITS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the local governmental unit to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The local unit is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The Local Governmental Unit Council has designated five banks for the deposit of Local Unit funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government and bank accounts and CDs, but not the remainder of State statutory authority as listed above.

The Local Governmental Unit's deposits and investment policy are in accordance with statutory authority.

At year-end, the Local Unit's deposits and investments were reported in the basic financial statements in the following categories:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Fiduciary Funds</u>	<u>Total Primary Government</u>
Cash and Cash				
Equivalents	537,308	-	-	537,308
Investments		-	-	-
Restricted Assets	_____	-	-	-
Total	<u>537,308</u>	<u>-</u>	<u>-</u>	<u>537,308</u>

The breakdown between deposits and investments is as follows:

	<u>Primary Government</u>
Bank Deposits (checking and savings accounts, certificates of deposit)	537,308
Investments in Securities, Mutual Funds and Similar Vehicles	-
Petty Cash and Cash on Hand	_____
Total	<u>537,308</u>

The bank balance of the primary government's deposits is \$537,308, of which \$537,308 is covered by federal depository insurance and \$0 is collateralized.

VILLAGE OF MULLIKEN
Notes to Financial Statements
February 28, 2006

NOTE 4 - DEPOSITS AND INVESTMENTS

Investments are categorized into these three categories of credit risk:

1. Insured or registered, or securities held by the Local Government Unit or its agent in the government's name;
2. Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the government's name; and
3. Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the Local Governmental Unit's name.

At year-end, the government held no investments except cash and cash equivalents.

NOTE 5 - RECEIVABLES

Receivables as of year-end for the government's individual major and Nonmajor funds, and the internal service and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	Sewer Fund	Major Streets Fund	Local Streets Fund	Total
Taxes Receivable	3,988	1,061	-	-	5,049
Accounts	1,445	12,226	-	-	13,671

Net Receivables	<u>14,213</u>	<u>13,710</u>	<u>2,674</u>	<u>959</u>	<u>31,556</u>

Government funds report deferred revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent Property Taxes	-	-
Special Assessments	-	-
Grant Drawdowns Prior to Meeting all Eligibility Requirements	<u>-</u>	<u>-</u>
Total	<u>None</u>	<u>None</u>

NOTE 7 - RISK MANAGEMENT

The Village's insurance for Workers' Compensation, General Liability and Property Loss and Fleet insurance is carried by an insurance company. The Village is not self-insured other than for minimal deductibles. No known material claims are outstanding. Insurance coverage is substantially the same as in previous years.

NOTE 8 - EMPLOYEE RETIREMENT AND BENEFIT SYSTEMS

The Township has a defined contribution pension plan for the elected officials. Contributions for the past three years are:

2-29-04	\$7,529
2-28-05	7,806 (unaudited)
2-28-06	7,808

A defined contribution pension plan provides pension benefits in return for services rendered, provides an individual account for each participant and specifies how contributions to the individual's account are to be determined instead of specifying the amounts of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account and the returns earned on investments of those contributions.

The plan held no securities of the Township or other related parties during the year or as of the close of the fiscal year.

NOTE 9 - SUMMARY OF SIGNIFICANT ACCOUNT POLICIES

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

NOTE 10 - CONSTRUCTION PERMIT FEES

The Village does not charge fees for the issuance of construction permits. Therefore, there is no fund balance for such activity.

To the Village President and
Members of the Council
Village of Mulliken
Eaton County, Michigan

This letter is being written to you in connection with the audit report for the Village of Mulliken for the fiscal year ended February 28, 2006. We have forwarded to the State of Michigan the required audit reports. During the course of our examination, we again found the financial records in very good order. We are putting into writing some comments and observations which were discussed during the audit as follows:

1. The Village needs to spend a portion of Act 51 Funds received from the State of Michigan for non-motorized transportation expenditures. Approximately \$4,600 needs to be spent within any ten year period for this purpose.
2. We suggest that you continue to have the general fund charge the other funds for equipment use on a quarterly basis. This seems to be working well.

We wish to thank you for the opportunity to serve you again this year and appreciate the willing cooperation and assistance we received from all during the course of the audit. Please feel free to contact us at any time should you have questions or comments.
